GRASS SEED
MIXTURES

A Partial View of Lawns, Shaded by Magnificent Old Trees, on the Estate of Mrs. W. L. Harkness, Glen Cove, L. I.; Mr. Fred Titus, Supt. Our "SHAD-O-LAWN" Grass Seed has been Extensively Used on These Lawns.

GRASS SEED
MIXTURE

SHAD-O-LAWN

GRASS SEED
MIXTURE

Composed from a special formula of **Nature's own shady place varieties**, cultivated for commercial purposes, these varieties are necessarily expensive but of great value in producing a **real green lawn in shady places, under trees, etc.**

12½ lbs. \$8.00, 25 lbs. \$16.00, 100 lbs. \$55.00.

On the Lawns of the J. N. Willys Estate, Oyster Bay, L. I., Mr. Otto Hertzsch, Supt., Our "SHAD-O-LAWN" Grass Seed Has Been Used to Great Advantage

CHOICE LAWN

HIGH-GRADE

GRASS SEED

MIXTURES

SEA-SHORE-SEED

A wonderful grass seed mixture for establishing permanent, healthy green lawns at the seashore and on land of a light, sandy nature. The varieties in this mixture are those nature provides for such localities.

12½ lbs. \$6.00, 25 lbs. \$10.50, 100 lbs. \$37.50.

TENNIS COURT Mixture

A blend in the proper proportions, of only the finest and best deep rooted grasses, especially composed to fight against the wear and tear, which all tennis courts are required to undergo.

12½ lbs. \$6.50, 25 lbs. \$12.00, 100 lbs. \$45.00.

D & T St. Andrews

Formula.

Putting Green Mixture

This mixture is composed of the finest grasses suitable for putting greens.

25 lbs. \$16.00, 100 lbs. \$60.00.

SPECIAL FORMULA including BENT GRASSES.

25 lbs. \$22.50, 100 lbs. \$80.00.

WORM ERADICATOR (Powder)

Simply sprinkle the powder freely over the greens and water with hose. The worms will rise quickly to the surface and there die.

500 lbs. \$40.00, 1000 lbs. \$75.00, ton \$125.00.
(In bags)

WHITE DWARF CLOVER

A re-cleaned high grade White Clover for lawns.

1 lb. \$0.90, 5 lbs. \$4.25, 10 lbs. \$8.00, 100 lbs. \$75.00.

For other Clovers see page 6.

TERRACE TURF Mixture

The terrace mixture which we offer is composed of deep rooting grasses which, if once established, will hold the soil and prevent washing, and we advise liberal fertilizing and seeding so that the grasses may be quickly established.

12½ lbs. \$6.50, 25 lbs. \$12.00, 100 lbs. \$45.00.

D & T Highland Chief

Fairway Mixture

Our special mixture for fairways, is, we believe, the best that is possible to compose for general normal conditions and we feel confident will produce excellent results. However, as soil and other conditions must be given due consideration, we will be pleased to submit any special formula for any particular condition.

100 lbs. \$40.00, 500 lbs. \$175.00.

D & T VELVET-PAD

Lawn Mixture

Highly recommended for large areas, cemeteries, parks, etc. This is a strong growing and vigorous permanent mixture. The varieties used in this mixture are all of the highest quality, re-cleaned and of good purity and germination. This mixture is especially intended to withstand hard usage and will produce a fine, strong green lawn.

25 lbs. \$8.00, 100 lbs. \$30.00, 500 lbs. \$125.00.

GRASS

NAMED

SEEDS

VARIETIES

All GRASS SEED Prices Are Subject to Market Changes.

Our named varieties of "BEST BY TEST" natural grasses are strictly **true to name** and we are listing here such kinds only, which have proven to produce the very best turf, either on **lawns, golf courses, meadows** and for **hay purposes**.

CREeping BENT (Imported) A variety which has of late been in strong demand, for mixing with other fine grasses for lawns, etc. Often used on putting-greens. We would advise using in mixture with other varieties..\$25.00 10 lbs. 25 lbs. 100 lbs. \$55.00 \$200.00

CRESTED DOG'S-TAIL. This variety is part of our "**Shad-o-lawn**" mixture, as it is especially well adapted for growing in shady places. 7.50 17.00 50.00

ENGLISH RYE GRASS. A rapid growing grass showing very quick results, but not a grass to be used in fine mixtures. Highly recommended in pastures, it should, however, be sown every two years. 2.50 6.00 20.00

PACEY'S ENGLISH RYE

An improvement over the old variety, being more dwarf in habit and of finer quality. 3.50 7.00 25.00

ITALIAN RYE GRASS. A very rapid grower and often used in the Southern states for Winter lawns, where it replaces Bermuda grass. 2.50 5.75 18.00

HARD AND SHEEP'S FESCUE. Both of these varieties are very similar in habit and are generally used on poor grazing grounds and for "rough" and "bunker" work on golf courses; also very suitable for poor sheep pastures. 9.00 20.00 70.00

KENTUCKY BLUE GRASS

A very good natural grass with unlimited uses, either on lawns or meadows. It starts to grow early in Spring and when cool Fall weather arrives it will supply your lawn with that smooth green surface so much desired. It takes two years for Kentucky Blue Grass to become thoroughly established. Highly recommended for pasture and hay mixtures.

Superfine..... 7.50 15.00 50.00
Fancy..... 6.00 13.00 45.00

MEADOW FESCUE. One of the finest grasses for permanent pasture and hay fields. The fodder is of high quality and much desired by all stock. We recommend Meadow Fescue in sandy places, where finer natural grasses will not root deep enough to find nourishment. 3.50 7.00 25.00

ORCHARD GRASS. Among fruit trees in orchards this variety has no equal. 10 lbs. 25 lbs. 100 lbs.

Superfine..... \$4.50 \$10.00 \$35.00
Extra..... 4.00 9.00 30.00

CHEWING'S FESCUE (N. Z. Grown, New Crop). An imported fine-leaved grass from New Zealand and very similar to Red Fescue. Very fine-leaved and excellent for lawns and putting-greens, forming a smooth, even turf which cannot be surpassed. 12.00 25.00 85.00

FINE-LEAVED FESCUE. A very valuable grass for fine lawns and putting-greens. 15.00 35.00 115.00

RED-TOP FANCY

A variety very thoroughly re-cleaned and of great value in lawn mixtures. If your lawn has not the appearance you desire we would highly recommend a liberal sowing of Red Top Fancy, together with a suitable plant food or lawn dressing, such as we offer in other sections of this catalog. Red Top is used in meadow and hay mixtures as it greatly improves the quality of the product.

Recleaned Superfine..... 4.50 10.00 37.50
Recleaned Extra..... 3.75 8.00 30.00

RHODE ISLAND BENT. A variety harvested to some extent in this country, but the largest part of the supply is imported from Europe. This grass is very similar to Creeping Bent and is highly recommended for fine lawns and putting-greens. 30.00 70.00 250.00

TIMOTHY

In some sections called Herd's Grass. **Timothy** produces the standard hay crop of this country and, mixed with Fancy Red Top and Clover is of great value for hay fields.

Prime XXX Brand..... 2.50 6.00 22.00
Extra Recleaned..... 2.00 4.00 15.00

WOOD MEADOW GRASS. Our "**Shad-o-lawn**" mixture is partly composed of this splendid variety. It thrives well in moist, shady places. 18.00 40.00 150.00

NOTE—FOR SPECIAL LAWN MIXTURES see pages 2 and 3.

FIELD OF WHEAT ON PRIVATE ESTATE FARM

JAPANESE BUCKWHEAT

This is a superior variety and more prolific, and yields double the weight per acre of other sorts. The grains are nearly twice as large as those of Silver Hull. Sow about the middle of June, broadcast, 1 bushel to the acre. **Bus. (48 lbs.) \$4.00.**

SPRING WHEAT

SASKATCHEWAN FIFE. The favorite sort in this locality, and is used on account of its prolific, vigorous growth. Sow in April or May, 2 bushels per acre. **Bus. (60 lbs.) \$4.00.**

For list of Winter Wheat see our Summer Booklet.

SPRING RYE

Used as a catch crop to sow where Winter grain has failed. **Bus. (56 lbs.) \$3.50, 10 bus. at \$3.20 per bus.**

For list of Winter Rye see our Summer Booklet.

BEARDLESS SPRING BARLEY

The straw is good for green feed or, when cured, as hay. The grain in the hull is excellent poultry feed. Sow broadcast $1\frac{1}{2}$ to 2 bushels to the acre from May 15 to July 1. **Bus. \$3.50.**

SPRING VETCH, OR TARES

Highly valuable for soiling or for green manuring. Use 2 or 3 bushels to acre broadcast. **10 lbs. \$1.75, 100 lbs. \$15.00, bus. (60 lbs.) \$10.00.**

DWARF ESSEX RAPE

The true Dwarf Essex Rape is valuable as a fattening food for pasturing sheep in Autumn. It is particularly adapted as a "catch-crop," for it grows best late in the season. **10 lbs. \$1.75, 100 lbs. \$15.00.**

POTATOES

MAINE GROWN

FIELD OF POTATOES

THE HUSTLER

A new late crop variety. Produces large tubers with white flesh, is remarkably disease resisting and will produce 15 to 20 barrels more per acre than any other sort. Do not fail to plant this Potato the coming season.

Bus. \$5.00, Barrel (165 lbs. sack) \$10.00.

EARLY BOVEE.

Somewhat earlier than Early Rose. A medium-sized Potato; very productive. The dwarf growth of vines permits easy cultivation, insuring a good yield.

EARLY ROSE

A variety which has been grown extensively in some sections. A Potato of good size and fine quality.

IRISH COBBLER.

One of the first varieties of Potatoes to be ready for market, and therefore will command a good price. The skin is creamy white, sometimes netted, which is an indication of good quality; eyes are strong, well developed, and but slightly indented. The flesh is white and of fine flavor.

LATE ROSE.

Splendid main crop variety.

BEAUTY OF HEBRON.

Popular early sort, very productive and a splendid keeper.

RURAL NEW YORKER.

Valuable late variety of large size.

UNCLE SAM.

Large main crop variety, very popular.

SPALDING'S ROSE

A very good sort.

NOROTON BEAUTY

Very early and productive standard variety.

RED BLISS TRIUMPH.

Very early; round red; a splendid sort.

Price of any of above varieties (except where noted), per bus. \$4.00; 165-lb. bag \$8.75; 10-bbl. lots at \$8.50.

LONG ISLAND WONDER

(Maine Grown)

This new Potato will soon take the place of Green Mountain, to which it is very similar, but under the same conditions it will produce 10 to 20 barrels more per acre. This has been done in several states where tried last year.

Bus. \$4.50, Barrel (165 lbs. sack) \$9.50.

CARMAN NO. 1.

Early round white.

DELAWARE.

Extra early round white.

EARLY OHIO.

Resembles Early Rose, but is earlier; round pink.

WHITE ELEPHANT.

On the style of late Hebron; a fine variety.

DIBBLE'S RUSSET.

Considered the finest Potato. This variety seems to be as near blight-proof as a Potato can be. The tubers are round to oblong, very large; the flesh is pure white and the skin has a roughened russet appearance that is characteristic. Extraordinary yielder.

CARMAN No. 3.

Is of perfect form, even in dry seasons, almost every Potato being of uniform size and shape; flesh extremely white.

GOLD COIN.

A splendid main crop variety of remarkable productiveness and finest table quality; slightly oblong form; light golden skin; flesh pure white; cooks very dry.

GREEN MOUNTAIN.

A late heavy cropper of excellent quality; skin smooth and white; shape roundish flat; eyes few and shallow; a good keeper.

SIR WALTER RALEIGH.

Enormous tubers; freely produced. They are oblong in shape, uniform in size and of fine quality.

Note.—"HEAVY-KROP" POTATO MANURE, especially compounded for Potato and all root crops. We strongly advise the use of Fertilizer for Potato growing as the crop must have a food that is quickly available as the plants are developing.

100 lbs. \$4.50, 1000 lbs. \$35.00, ton \$67.50.

**PORTABLE REFUSE-BURNERS**

A portable steel furnace for the rapid and convenient destruction of all leaves, refuse and waste matter. In reality a two-wheeled handcart (for which purpose it can also be used) made of strong steel angle iron and heavy steel netting, which is fireproof and guaranteed not to burn out. Is fitted with broad-tired wheels, which enable it to be pulled along with the cleaning up squad on lawns or soft ground without injury. A strong steel pan is fitted under the axle, which catches all the fire and ashes as they fall through the bottom. This pan can be easily emptied as needed.
